SUMMARY

Motivated high school senior with leadership experience building student organizations, teaching technical concepts, and communicating with diverse audiences. Proven ability to learn quickly, take initiative, and thrive in competitive, high-accountability environments. Passionate about startups, AI, and building relationships through persistence, curiosity, and disciplined execution. Seeking to launch a career in B2B sales at a fast-growing company.

Prospected and recruited 30+ students to launch a new technology club, developing outreach messaging, presenting to classmates, and building long-term engagement.

WORK EXPERIENCE

Instructor, Nike Golf Camp (Summer 2024)

- Led daily instruction and coaching for groups of young athletes, adapting communication styles to students with different skill levels.
- Built trust with parents and campers by providing clear progress updates and individualized feedback.
- Worked in a fast-paced team environment where professionalism, energy, and consistency were expected every day.

Builder, C.R. Leaf Stone Garden (2022 - 2024)

- Constructed a dome greenhouse with a hydroponics system to grow strawberries and lettuce.
- Gained practical insights into sustainable agriculture and environmental design.

LEADERSHIP HIGHLIGHTS

- Founded and currently lead a 30-member Hack Club.
- Organized technology workshops and community STEM events.
- Presented engineering projects to thousands of Maker Faire attendees.
- Mentored younger students through Nike Golf Camp.

PROJECTS & TECHNICAL EXPERIENCE

JLHS Hack Club Founder & President (2024 - 2026)

Founded and grew a technology club to over 30 active members, recruiting students through presentations, outreach, and peer networking. Organized workshops, coordinated speakers, and managed weekly meetings to keep members engaged and attendance growing.

Inclusive Innovators Club Leader | (2023 - 2024)

Led a student team designing adaptive toys for children with disabilities, coordinating project timelines and collaborating with local schools to deliver finished products.

Maker Faire Booth Host | (2024)

Demonstrated electronics projects to thousands of attendees, answering questions and engaging visitors to create hands-on learning experiences.

Outdoors Club President | (2022 - 2024)

- Organized outdoor excursions such as hiking trips to promote environmental awareness among students.
- Encouraged leadership and teamwork by planning group activities in natural settings.

EDUCATION

James Logan High School | Union City, CA
